

All-Access Home Health: The eLearning library for homehealth coding & OASIS, from new hires to professionals looking to advance their skills.

Support your organization's training needs with a single bundled solution!

All-Access Home Health is a comprehensive eLearning library created by the industry's top subject matter experts to meet your training, competency, and continuing education needs. This training is also intended for those preparing to sit for their HCS-D and/or HCS-O credentialing exam(s).

All-Access Home Health includes assessment tools to help you measure your staff's understanding of ICD-10 coding and/or OASIS and helps you to identify potential skills gaps and pinpoint areas for additional training opportunities. This training will provide your team with the insights, education, and resources to support their continued advancement and ensure accurate coding and OASIS completion, resulting in proper payment for claims submitted.

This eLearning is SCORM compliant and can be delivered on any learning management system (LMS), so you can choose to use HCPro's LMS or your own.
